

An Engine Blockbuster Process.

A CAST SAVINGS OF \$1,048,810

Compare CEC's revolutionary CleanCast® process with less efficient engine block casting processes. To see a detailed cost comparison, visit our website at cec-intl.com/CleanCast.

Innovation is always busting out at CEC. Our latest is *CleanCast*®, a new heat-treating process that uses high-pressure heated air to rapidly heat and thermally de-core castings.

CleanCast® helps you process faster – a lot faster. And what's more, no racks or trays or baskets are required – none. *CleanCast*® raises the efficiency of your process, while increasing your productivity. It's a blockbuster innovation – that makes possible blockbuster savings.

CEC

CONSOLIDATED ENGINEERING COMPANY
